Dear Sirs:-

I learn from Lee P. Ketcham to-day that a Mr. Stckel was talking to him last evening on the K. C. train in regard to our Cyclone Fence, and that you would like to hear from me in regard to it. He did not say what you wanted whether it was price on fence or on machines, however, you are just out of my territory, but when our general agent was here some two weeks ago he wanted ~~me~~ to turn over your county to me, as it now belongs to the company, and I have written them in regard to it to-hight, and will find out in a few days what I can do for you. Will you kindly let me know what township in Davis county that you want to put this fence in and then I can find out if this township has been disposed of, if so, therewould be no chance for me to do any thing, but you would be obliged to trade with the agent that has your township; but let me hear from you just what you want and the township your land is in and you can depend on me to do all I can for you. There is no fence like the Cyclone so the C. B. & Q. say, and the Burlington & Northwestern Railroad where we put in several miles last year, and the prospects for this seasons work with them looks well.

Hoping to hear from you soon, I remain,

Yours truly,

Jesse Ketcham
